The screenshot shows the Google search interface. At the top, there's a navigation bar with links for Web, Images, Groups, News, Froogle, Local, and more ». Below the navigation bar is a search bar containing the query "word sense disambiguation theme". To the right of the search bar are two buttons: "Search" and "Advanced Search Preferences". The main content area displays search results. On the left, under the "Web" heading, there's a section titled "[PDF] Machine Learning for Domain-Specific Word Sense Disambiguation". This section includes a link to a PDF file, a file format note (PDF/Adobe Acrobat), and a "View as HTML" link. The snippet below the link discusses improving word sense disambiguation in domain-specific contexts. Further down the page, there are sections for "[PPT] Lecture", "[PDF] themes", "[PDF] Citations: Introduction to the special issue on word sense ...", "[PDF] Corpora List Oct 1995 to Present: Call: Word Sense Disambiguation", "[PDF] Corpora List Apr 1995 to Jun 1995: WORD SENSE DISAMBIGUATION ...", and "[PPT] Project Acronym: UwA, uWa, gWa, GWA". Each of these sections follows a similar pattern with a title, a brief description, and a snippet of text from a source page.
